pngo19@calstatela.edu · **https://www.linkedin.com/in/fkvn/** · **https://github.com/fkvn**

By picturing myself as a Full-Stack developer and concerning my long-term goals, I want to be an expert on the website development field, especially of progressive Web Applications, which predictably become the major competitor to mobile apps in the modern age. In addition, wherever I go, people are always willing to write a recommendation letter for me and give me a positive performance review. I'm proud to say that my secure communication, outstanding attitude, and impressive leadership skills set me apart from other programmers.

EDUCATION

08/2018 - PRESENT
M.S., COMPUTER SCIENCE, CALIFORNIA STATE UNIVERSITY, LOS ANGELES
GPA: 4.0

1/2017 – 5/2018
ENGLISH STUDIES, CALIFORNIA STATE UNIVERSITY, LONG BEACH (ALI)

PROJECTS

HIRING PROCESS SERVICE

This project is developed based on a school project of "Advanced Topics in Web Programming" class for master students at California State University, Los Angeles - 2019. The primary purpose is for approaching how to implement Rest API backend with Spring Boot application.
Technology: Java/Maven/Spring, Spring Boot, MySQL, REST API.
Details: https://github.com/fkvn/Hiring-Process-Service

POS SYSTEM SERVICE

The goal of the project is to develop a server-side API service to facilitate the management process for a small-medium coffee shop. Owners can track hours, communicate with employees, and perform other tasks that help their store run smoothly.
Technology: Node.js, Express, MongoDB, REST API.
Details: https://github.com/fkvn/POS-System-Service

CUSTOMERS-ORDERS SERVICE

Mainly developing a server-side API service to facilitate the management process for real medium businesses. This project is developed based on requests from a Cal State LA student for his family business.
Technology: C#, ASP.NET Core, PostgreSQL, REST API.
Details: https://github.com/fkvn/Customers-Orders-Service

EXPERIENCE

10/2018 – PRESENT
ASSISTANT LAB CONSULTANT, CAL STATE LA – ITS (IT CLIENT SUPPORT SERVICES)

Attend customer service and keep updated on ITS services available for campus users. One of the most challenging things is maintaining lab services for software, security, and helping students most appropriately. In addition to my tech-savvy skills, I devote particular emphasis to punctuality, handling under pressure, and maintaining outstanding performance.

7/2014 – 10/2014
DEVELOPER INTERN, ISB VIETNAM COMPANY LIMITED (IVC)

Communicated with the supervisor to implement multiple tasks related, mainly, to Visual Basic for Application (VBA) for Microsoft Excel. Primarily working on analyzing, researching, and implementing data from excel files to export expected results in terms of business/client demand.
